This year's Eichrom User's Group Workshop will be a special event as we are celebrating our 25<sup>th</sup> year. Our workshop will feature presentations by a number of respected scientists in the radioanalytical community. Dr. Dan McAlister will be speaking on updates and revisions to the Eichrom Method library. Our quality manager Sarah McAlister will be speaking on roll of customer feedback on our quality systems over the years. Additionally, we will have talks by many respected scientists who have used the Eichrom products. This year we will also have a presentation by the Eichrom Scholar recipient.

We hope you will join us on Wednesday afternoon.
